Pit Lane, Paddock, & Garage Assignments

Garage assignments will be released the week of the event.

There are no pit lane assignments; first come, first serve.

IF YOUR RIG IS NOT READY TO LOAD IN ON TIME YOU MAY NOT BE ABLE TO PARK NEAR YOUR GARAGE.

Contact us if you would like to move into the paddock earlier when the track is hot. Garage and pit load in will still start at 6:00 pm.

Fuel & Tire

Tire Service

Provided by Jackson Motorsports during the event. For more information and to order tires, contact Evan Weintraub at evan.weintraub@jacksonmg.com. Evan can also be reached at (843) 271-1330.

Fuel

Link to order VP Racing Fuel delivered to track is on davidmurry.com under "Track Days" menu. Fuel will also be available from the fuel island at the track.

Remove all empty fuels drums from the track when the event ends.

Sunoco fuel also available at the pumps both days from 8:30 am - 3:30 pm.

Live Timing

Live timing will be displayed on Race Monitor. If you would like your lap times shown, send David Murry (david@davidmurry.com) or Dylan Murry (dylankmurry@gmail.com) your transponder number with the corresponding car number.

Note: This is optional.

Track Damage

Drivers/teams are financially responsible for any damage that they cause to race track property including, but not limited to, tire bundles, guard rails and posts. Additionally, any absorbent material used to clean up after fluid spills, leaks, etc. and/or any fire suppression used on your behalf will be billed back to the driver/team responsible. WGI has informed us that, if a comprehensive cleanup is necessary due to a significant fluid spill, the charge will be \$500 per hour.

Paddock / Garage Access

The paddock will be open to DMTD participants on Tuesday, June 2 starting at 6pm and garages will be closed at 9pm each night. All transporters will be staged at the WGI Registration Building (top of the hill by Gate 4A). Transporter drivers will sign the track waiver and be issued a track wristband. Rigs only, no cars, will leave the registration area in small groups (to avoid stopping on public roads) and proceed through Gate 2 to the garage area to park. Rigs will enter the garage area on the end where "The Little Speed Shop" is (see attached map). We will have 2 lanes as we enter the Garage area and begin with Garage 1 ending with Garage 14 in the left lane, Garage 30 ending with Garage 17 in the right lane. See the attached map, to follow for order of team parking load in. The garages will close at 9pm each night.

NOTE: Passenger cars, support trucks, etc. will be allowed access through Gate 2 Security only after all rigs are parked.

Garage Area Protocol

No fueling or storage of fuel is permitted in the garages. Direction of travel around the garage is counter-clockwise only. This applies to all vehicles including pit bikes, tugs, street cars, etc. There is no smoking in the garages.
